JTL Hot Tub Operator Training Programme

Introduction and Overview

The aim of this training programme is to provide the knowledge and understanding required by hot tub operators for the safe and efficient running of commercial hot tubs. The programme also provides learners with the knowledge and skills required to be able to competently carry out pool water testing and to understand how to interpret pool readings with reference to the appropriate parameters.

Learning outcomes:

Learners will study via an online platform containing recorded sessions and will complete exercises and complete an online assessment to enable the learner to:

- Understand the legal responsibilities and obligation of hot tub operators to maintain safe water
- Recognise the sources of guidance available to hot tub operators
- Understand the need for good preparation of the hot tub site
- Understand the nature of pollution of hot tub water and the need for pre-bathing hygiene
- Understand how the hot tub circulation systems work
- Understand the need for effective chemical treatment of hot tub water
- Know how to test hot tub water
- Know how to respond to test results which are out of range
- Recognise the type of filters used in hot tubs and how they are cleaned.
- Recognise the chemical safety issues related to hot tubs
- Understand the need for the bacteriological testing of hot tubs
- Understand the need for the legionella testing of hot tubs
- Understand the importance of accurate recording of hot tub chemical readings
- Hot tubs for hire: General guidance with examples of terms and conditions of hire
- Consider the guidance which needs to be given to bathers
- Recognise the importance of HSG 282.
- The impact of Covid-19 on hot tub chemical levels

Pre-requisites:

There are no programme entry requirements
This is one of a series of programmes which we have developed for specific markets where attendance at a typical pool plant course would not be helpful. The course content and materials are centred entirely around hot tubs with no unnecessary content.

Assessment:

The programme is assessed by completing an online multiple-choice test.

Guided learning hours:

The suggested guided learning hours for this programme are: **8** hours. But, because the training programme is delivered online, you can work at your own speed in the convenience of your own workplace.

Endorsement*:*

This training programme is **externally** endorsed, not only by **Active IQ**, the leading **awarding organisation** in the active leisure sector, but also by **CIMSPA**, the Chartered Institute for the leisure industry.

IMPORTANT BOOKING INFORMATION

Please note that in order to maintain the integrity of the qualification and to safeguard against fraud, only the name of the person registered to undertake the training will be named on the certificate.

If you are registering the course on behalf of a colleague, we must have their full name and email address so that the registration process can be completed properly.
Certificates will not be issued to company names.

Certificates cannot be claimed for any other person who is not the registered learner.

It is recommended that the qualification is updated every three years in order to keep the knowledge current.
